

.518 B-TONE

Biphasic serum with restructuring effect

Treatment with a restructuring effect in two synergistic phases. The upper oily phase, enriched with Sweet Almond, Jojoba, Rosa Mosqueta oils and a compound of fermented oils (Olive, Argan, Sunflower seeds, Korean herb Glycyrrhiza Uralensis and Shiunko), combats the onset of stretch marks and nourishes the skin in depth, making it soft and silky. The lower aqueous phase is instead enhanced with the special Architekt Define Technology which combats the effects of gravity by restructuring the elastic fibres, stimulates the synthesis of new collagen and improves the skin's natural hydration system, making it more compact, toned and firm. Thanks to its innovative two-phase formulation, it applies easily and is quickly absorbed without leaving a greasy residue.

 Bottle 100 ml

 Cod. Art.: ARO202003

PROBLEMS

- Lack or loss of tone
- Lack of elasticity
- Recently formed stretch marks

EFFECTS

- Restructuring
- Elasticising
- Nourishing
- Protective

MAIN ACTIVE INGREDIENTS

ARCHITEKT DEFINE TECHNOLOGY

It combines the work of three active ingredients with different specific functions: Hydroxypropylsilane, Hydagen® Aquaporin and Actygy®. Like a true architect of skin rejuvenation, this special technology acts on the different fronts of the skin's structural framework to give it firmness and tone.

HYDROLYSED COLLAGEN

Collagen is a fibrous protein and one of the major components of the dermis. Applied to the skin, it increases its turgidity, firmness and thickness. Hydrolysed collagen is obtained by hydrolysis, a process that breaks down its long native chains into smaller fragments, making it

easier to penetrate and absorb through the skin.

FERMENTOIL

Thanks to fermentation technology, patented in collaboration with the Korea Research Institute of Bioscience & Biotechnology, and the use of the micro-organism *Pseudozyma Sp.*, known to clean waste oils in the ocean, an exceptional mix of fermented oils including Olive, Argan, Sunflower seed, Korean grass - Glycyrrhiza uralensis and Shiunko has been created. Compared to traditional oils, they have a superior consistency, offering powerful moisturising and skin-penetrating benefits, and boast intense anti-oxidant, protective and regenerative

action, along with anti-irritation and anti-inflammatory properties.

VEGETABLE OILS (ROSA MOSQUETA, JOJOBA, SWEET ALMOND and ARGAN)

Thanks to their high composition in essential fatty acids, they have highly moisturising and emollient properties. They are also rich in phytosterols and antioxidant substances that prevent skin ageing and contribute to tissue regeneration. Finally, thanks to their regenerating and elasticising properties, they are ideal for preventing the formation of stretch marks and improving skin healing.

INSTRUCTIONS

Shake the bottle until a homogeneous solution is obtained. Apply an adequate amount of product to the critical points, massaging with vigorous movements until completely absorbed. Wash hands thoroughly after use and avoid contact with eyes and mucous membranes. Avoid contact with undamaged skin. Rinse immediately in case of irritation. External use.

INGREDIENTS: AQUA (WATER), PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, COCONUT/PALM KERNEL ALKANES, SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL, GLYCERIN, METHYLSILANOL HYDROXYPROLINE ASPARTATE, CANDIDA BOMBICOLA/GLUCOSE/METHYL RAPESEEDATE FERMENT, ARGANIA SPINOSA KERNEL OIL, ROSA MOSCHATA SEED OIL, OLEA EUROPAEA (OLIVE) FRUIT OIL, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, TOCOPHEROL, ANGELICA GIGAS ROOT EXTRACT, GLYCYRRHIZA URALENSIS (LICORICE) ROOT EXTRACT, LITHOSPERMUM ERYTHRORHIZON ROOT EXTRACT, HYDROLYZED COLLAGEN, BACILLUS/SOYBEAN FERMENT EXTRACT, BETA-SITOSTEROL, SQUALENE, GLYCERYL GLUCOSIDE, HYDROXYACETOPHENONE, SODIUM CHLORIDE, CAPRYLYL GLYCOL, 1,2-HEXANEDIOL, SODIUM GLUCONATE, PARFUM (FRAGRANCE), PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, TETRASODIUM GLUTAMATE DIACETATE, HEXYL CINNAMAL, CITRONELLOL, ALPHA-ISOMETHYL IONONE, LINALOOL, BENZYL SALICYLATE, COUMARIN.
