

# BRUSH

## Dry Peeling

Very ancient technique that provides excellent results and great benefits on the lymphatic system in just a few minutes a day. The bristles of this brush derive from a vegetable fiber called "Tampico" extracted from "Agave Lechuguilla" (also called "Ixtle"), a succulent plant that grows spontaneously in the desert areas of Northern Mexico.

Cod. Art.: ARO900002

### PROBLEMS

- Microcirculation and lymphatic system

### EFFECTS

- Stimulation of the lymphatic system
- Drainage
- Energizing

### SPECIFICATIONS

- Slow and light movements stimulate the lymphatic system, promoting the draining effect
